

# music hall t25.2 am/fm tuner

Music hall is proud to announce the release of the t25.2 am/fm tuner. The t25.2 tuner was specifically designed for the music lover. We set out to prove that with attention to detail, good design, and dedication, fine audio equipment can be built at a reasonable price. Enchanting in sound and simplistic in operation, the t25.2 tuner achieves this goal. Have a listen. We're sure you'll agree; the t25.2 tuner, a25.2 integrated amplifier, and cd25.2 combined provide you with an engaging musical experience that squarely trounces the sound of similarly priced receiver based systems.

## Features

- Special low-noise tuning module
