

# music hall trio cd/receiver

We designed the trio to enhance the modern life of the space conscious music lover by providing them with three gorgeous sounding components in one simple uncluttered package. The one box trio contains; a two-channel integrated amplifier, an am/fm tuner, and cd player. We chose a select group of technologically advanced components to create this powerful one box wonder. These three components combined offer a remarkable "live music" experience that was previously unobtainable at this price.
